

Trade Qualified Fitter and Turner/ CNC Machinist

Ozcon Engineering, located in Dalby, Qld, operates a comprehensive and highly qualified pipe processing facility with an extensive machine shop and general engineering service, along with thread gauging and inspection services. We deal with major CSG and mining customers and have the highest regard for producing quality workmanship.

We are currently looking for three (3) experienced CNC Lathe Operators to join our Queensland business.

The suitable applicants must have demonstrated ability in:

- Applying your trade qualification principals to both threading and general machining work;
- Following occupational health and safety regulations and demonstrating safe work practices;
- Reading and interpreting workshop drawings;
- Communicating with a variety of people including supervisors, clients and management personnel;
- Show a very high standard of quality control.

CNC machining experience is essential, and experience with CNC lathes and Fagor controls is advantageous.

Please submit your resume and cover letter online. Only candidates who have been successful at phone interview stage will be contacted.
